

*****CARING AND FEEDING FOR YOUR PWD PUPPY*****

THE CARE OF YOUR PUPPY UP TO THE DAY YOU TAKE THE PUPPY HOME HAS BEEN THE BEST POSSIBLE. PLEASE KEEP UP THE GOOD WORK. WE WANT ONLY THE BEST FOR OUR PUPS. HERE ARE SOME RECOMMENDATION:

FEEDING: WARMED GOATS MILK, CANNED PUPPY FOOD & BEEF BROTH 3 X DAILY. INTRODUCE DRY PUPPY FOOD TO THIS MIXTURE OVER THE NEXT FEW WEEKS.

"AVODERM" CHICKEN & RICE PUPPY FORMULA (CANNED)

"EUKANUBA" DRY PUPPY FOOD

ALSO RAW VEGETABLES ARE RECOMMENDED: BROCOLLI, CAULIFLOWER, CABBAGE AND CARROTS

DO NOT PLAY WITH YOUR PUPPY WHEN THE PUP IS EATING.

DO NOT FEED COW'S MILK.

ALWAYS HAVE A BOWL OF FRESH WATER AND DRY FOOD AVIALABLE.

AT THREE MONTHS INTRODUCE CANNED "WILD CAUGHT" SALMON AND TUNA TO THE DIET.

WHEN YOUR PUPPY IS ONE YEAR OLD GRADUALLY GRADUATE TO ADULT DRY FOOD. WE SRONGLY RECOMMEND "PURINA PRO PLAN" SHREDDED BLEND, CHICKEN & RICE. CONTINUE SALMON, TUNA, COOKED EGGS, COTTAGE CHEESE AND OF COURSE RAW VEGETABLES. THEY WILL ENJOY DIFFERENT FOODS EACH DAY JUST LIKE WE DO.

VET VISIT: YOUR PUPPY HAS BEEN GIVEN THE 5 IN 1 PUPPY SHOT AT 6 WEEKS. THE NEXT PUPPY SHOT IS DUE AT 10 WEEKS. PLEASE CONTACT YOUR VET AND MAKE AN APPOINTMENT. ALSO AT 7 WEEKS THE PUPPY WAS WORMED AND NO WORMS WERE FOUND.

GROOMING: THE PUPPY IS TO YOUNG FOR A BATH. JUST GENTLY CLEAN FACE AND PAWS WITH WARM CLOTH. USE A VERY SOFT BRUSH TO GET THE PUPPY READY FOR GROOMING. AT 6 MONTHS IS A GOOD TIME TO START THE GROOMING PROCESS. YOUR DOG SHOULD BE GROOMED EVERY 3 MONTHS. IN WARM WEATHER THE LENGTH OF COAT SHOULD BE VERY SHORT AND IN COLD WEATHER THE COAT SHOULD BE KEPT LONG. A GOOD GROOMER WILL HELP YOU. THESE DOGS LOVE TO BE CLEAN BUT LOVE GETTING WET AND DIRTY. THESE ARE IN THE HOUSE DOGS ESPECAILLY IN THE HEAT OF THE SUMMER AND THE COLD OF THE WINTER. THEY ARE MOST COMFORTABLE WHERE YOU ARE!

PLEASE READ ALL AND ANY BOOKS ON THE PORTUGUESE WATER DOGS. THEY ARE AMAZING DOGS WITH A HISTORY THAT IS RICH. KNOWLEDGE OF THIS BREED WILL ONLY MAKE YOU LOVE THEM MORE!
